#### **SECTION 2: Hazards identification**

#### 2.1. Classification of the substance or mixture

Classification of the mixture in accordance with Regulation (EC) No 1272/2008 The mixture is classified as dangerous.

Skin Irrit. 2, H315 Skin Sens. 1, H317 Eye Irrit. 2, H319 Aquatic Chronic 2, H411

Full text of all classifications and hazard statements is given in the section 16.

#### Most serious adverse effects on human health and the environment

Causes skin irritation. Causes serious eye irritation. May cause an allergic skin reaction. Toxic to aquatic life with long lasting effects.

#### 2.2. Label elements

Hazard pictogram

according to Regulation (EC) No 1907/2006 (REACH) as amended

#### Hazardous substances

bis[4-(2,3-epoxypropoxy)phenyl]propane

Formaldehyde, oligomeric reaction products with 1-chloro-2,3-epoxypropane and phenol oxirane, mono[(C12-14-alkyloxy)methyl] derivs.

16th December 2020 17th June 2021

#### Hazard statement

| Causes skin irritation.  |
|--|
| May cause an allergic skin reaction.   |
| Causes serious eye irritation.   |
| Toxic to aquatic life with long lasting effects.   |
| ements   |
| If medical advice is needed, have product container or label at hand.  |
| Keep out of reach of children.   |
| Wash hands and exposed parts of the body thoroughly after handling.  |
| Wear protective gloves/protective clothing/eye protection/face protection.   |
| IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. |
| Collect spillage.  |
| Dispose of contents/container to according to the instructions of the manufacturer or person authorized to dispose of waste.     |
|  |

#### 2.3. Other hazards

The mixture does not contain substances with endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605. Mixture does not contain any substance meet the criteria for PBT or vPvB in accordance with Annex XIII of Regulation (EC) No. 1907/2006 (REACH) as amended.

#### **SECTION 3: Composition/information on ingredients**

#### 3.2. Mixtures

#### **Chemical characterization**

Mixture of substances and additives specified below.

Mixture contains these hazardous substances and substances with the highest permissible concentration in the working environment

| Identification numbers  | Substance name   | Content in<br>% weight | Classification according to Regulation (EC) No 1272/2008   | Note |

#### Notes

1 Substance of unknown or variable composition, complex reaction products or biological materials - UVCB.

Full text of all classifications and hazard statements is given in the section 16.

#### **SECTION 4: First aid measures**

#### 4.1. Description of first aid measures

Take care of your own safety. If any health problems are manifested or if in doubt, inform a doctor and show him information from this safety data sheet.

according to Regulation (EC) No 1907/2006 (REACH) as amended

#### Nexler EPOLIS WE-100 składnik B

| Creation date | 16th December 2020 |         |     |
|---------------|--------------------|---------|-----|
| Revision date | 17th June 2021     | Version | 2.0 |

#### If inhaled

Terminate the exposure immediately; move the affected person to fresh air. Protect the person against growing cold. Provide medical treatment if irritation, dyspnoea or other symptoms persist.

#### If on skin

Remove contaminated clothes. Wash the affected area with plenty of water, lukewarm if possible. Soap, soap solution or shampoo should be used if there is no skin injury. Provide medical treatment if skin irritation persists.

#### If in eyes

Rinse eyes immediately with a flow of running water, open the eyelids (also using force if needed); remove contact lenses immediately if worn by the affected person. Rinsing should continue at least for 10 minutes. Provide medical treatment, specialized if possible.

#### If swallowed

Rinse out the mouth with water and provide 2-5 dL of water. Provide medical treatment if the person has any health problems.

#### 4.2. Most important symptoms and effects, both acute and delayed

If inhaled

Not expected.

If on skin

May cause an allergic skin reaction.

#### If in eyes

Causes serious eye irritation.

If swallowed

Irritation, nausea.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Symptomatic treatment.

#### **SECTION 5: Firefighting measures**

#### 5.1. Extinguishing media

#### Suitable extinguishing media

Alcohol-resistant foam, carbon dioxide, powder, water spray jet, water mist.

Unsuitable extinguishing media

Water - full jet.

#### 5.2. Special hazards arising from the substance or mixture

In the event of fire, carbon monoxide, carbon dioxide and other toxic gases may arise. Inhalation of hazardous degradation (pyrolysis) products may cause serious health damage.

#### 5.3. Advice for firefighters

Self-Contained Breathing Apparatus (SCBA) with a chemical protection suit only where personal (close) contact is likely. Use a self-contained breathing apparatus and full-body protective clothing. Do not allow run-off of contaminated fire extinguishing material to enter drains or surface and ground water.

#### **SECTION 6: Accidental release measures**

#### 6.1. Personal precautions, protective equipment and emergency procedures

Use personal protective equipment for work. Follow the instructions in the Sections 7 and 8. Prevent contact with skin and eyes.

#### 6.2. Environmental precautions

Do not allow to enter drains. Prevent contamination of the soil and entering surface or ground water.

#### 6.3. Methods and material for containment and cleaning up

Spilled product should be covered with suitable (non-flammable) absorbing material (sand, diatomaceous earth, earth and other suitable absorption materials); to be contained in well closed containers and removed as per the Section 13. In the event of leakage of the substantial amount of the product, inform fire brigade and other competent bodies. After removal of the product, wash the contaminated site with plenty of water. Do not use solvents.

#### 6.4. Reference to other sections

See the Section 7, 8 and 13.

according to Regulation (EC) No 1907/2006 (REACH) as amended

### Nexler EPOLIS WE-100 składnik B

Creation date Revision date 16th December 2020 17th June 2021

Version

2.0

#### SECTION 7: Handling and storage

#### 7.1. Precautions for safe handling

Prevent contact with skin and eyes. Contaminated work clothing should not be allowed out of the workplace. Wash hands and exposed parts of the body thoroughly after handling. Use personal protective equipment as per Section 8. Observe valid legal regulations on safety and health protection. Avoid release to the environment.

#### 7.2. Conditions for safe storage, including any incompatibilities

Store in tightly closed containers in cold, dry and well ventilated areas designated for this purpose. During storage, the product may crystallize, especially at temperatures below 20 °C; then, before use, heat the contents of the package to a temperature of 60-80 °C and mix it, which will allow it to liquefy and empty the package.

## 7.3. Specific end use(s) not available

#### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

The mixture contains no substances for which occupational exposure limits are set.  $\ensuremath{\textbf{DNEL}}$ 

bis[4-(2,3-epoxypropoxy)phenyl]propane

#### 8.2. **Exposure controls**

Do not eat, drink and smoke during work. Wash your hands thoroughly with water and soap after work and before breaks for a meal and rest.

#### Eye/face protection

Protective goggles or face shield (based on the nature of the work performed).

#### Skin protection

Hand protection: Protective gloves resistant to the product. When choosing appropriate thickness, material and permeability of the gloves, observe recommendations of their particular manufacturer. Observe other recommendations of the manufacturer. Other protection: protective workwear. Contaminated skin should be washed thoroughly.

#### **Respiratory protection**

#### It is not needed.

**Thermal hazard** 

Data not available.

#### **Environmental exposure controls**

Observe usual measures for protection of the environment, see Section 6.2. Collect spillage.

2.0

#### 12.7. Other adverse effects

Data not available.

#### SECTION 13: Disposal considerations

#### 13.1. Waste treatment methods

Danger of environmental contamination, follow the applicable waste disposal regulations. Store unused product and contaminated packaging in closed containers for waste collection and hand over for disposal to a specialized company authorized to conduct such activity. Do not pour unused product into drains. It must not be disposed of together with municipal waste. Empty packaging can be used for energy in a waste incineration plant or collected in a landfill with an appropriate classification. Perfectly cleaned packaging can be recycled. The classification of waste may change depending on where it is generated.

#### Waste management legislation

Directive 2008/98/EC of the European Parliament and of the Council of 19 November 2008 on waste, as amended. Decision 2000/532/EC establishing a list of wastes, as amended.

#### Waste type code

16 03 05 organic wastes containing hazardous substances \*

#### Packaging waste type code

15 01 10 packaging containing residues of or contaminated by hazardous substances \*

(\*) - Hazardous waste according to Directive 2008/98/EC on hazardous waste

#### **SECTION 14: Transport information**

- 14.1. UN number or ID number
  - UN 3082
- 14.2. UN proper shipping name

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (contains: 2,2-bis [4- (2,3-epoxypropoxy) phenyl] propane )

- **14.3.** Transport hazard class(es)9 Miscellaneous dangerous substances and articles
- 14.4. Packing group
  - III substances presenting low danger
- 14.5. Environmental hazards
  - Yes.
- 14.6. Special precautions for user
  - Reference in the Sections 4 to 8.

# **14.7.** Maritime transport in bulk according to IMO instruments not available

#### Additional information

Hazard identification No.

- UN number Classification code
- Safety signs

according to Regulation (EC) No 1907/2006 (REACH) as amended

Creation date 16th December 2020 17th June 2021 2.0 Revision date Version A list of standard risk phrases used in the safety data sheet H315 Causes skin irritation. H317 May cause an allergic skin reaction. H319 Causes serious eye irritation. H411 Toxic to aquatic life with long lasting effects. Guidelines for safe handling used in the safety data sheet If medical advice is needed, have product container or label at hand. P101 P102 Keep out of reach of children. P264 Wash hands and exposed parts of the body thoroughly after handling. P280 Wear protective gloves/protective clothing/eye protection/face protection. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P391 Collect spillage. P501 Dispose of contents/container to according to the instructions of the manufacturer or person authorized to dispose of waste. Other important information about human health protection The product must not be - unless specifically approved by the manufacturer/importer - used for purposes other than as per the Section 1. The user is responsible for adherence to all related health protection regulations. Key to abbreviations and acronyms used in the safety data sheet European agreement concerning the international carriage of dangerous goods by road ADR BCF **Bioconcentration Factor** CAS Chemical Abstracts Service CLP Regulation (EC) No 1272/2008 on classification, labelling and packaging of substance and mixtures DNEL Derived no-effect level EC Identification code for each substance listed in EINECS FC<sub>50</sub> Concentration of a substance when it is affected 50% of the population EINECS European Inventory of Existing Commercial Chemical Substances FmS Emergency plan FU **European Union** EuPCS European Product Categorisation System ΙΑΤΑ International Air Transport Association IBC International Code For The Construction And Equipment of Ships Carrying Dangerous Chemicals IC50 Concentration causing 50% blockade ICAO International Civil Aviation Organization IMDG International Maritime Dangerous Goods INCI International Nomenclature of Cosmetic Ingredients International Organization for Standardization ISO IUPAC International Union of Pure and Applied Chemistry LC50 Lethal concentration of a substance in which it can be expected death of 50% of the population Lethal dose of a substance in which it can be expected death of 50% of the population LD<sub>50</sub> LOAEC Lowest observed adverse effect concentration LOAEL Lowest observed adverse effect level loa Kow Octanol-water partition coefficient MARPOL International Convention for the Prevention of Pollution From Ships NOAEC No observed adverse effect concentration NOAEL No observed adverse effect level NOFC No observed effect concentration NOFI No observed effect level OEL Occupational Exposure Limits PBT Persistent, Bioaccumulative and Toxic PNEC Predicted no-effect concentration Parts per million ppm

according to Regulation (EC) No 1907/2006 (REACH) as amended

Classification procedure - calculation method.

#### Statement

The safety data sheet provides information aimed at ensuring safety and health protection at work and environmental protection. The provided information corresponds to the current status of knowledge and experience and complies with valid legal regulations. The information should not be understood as guaranteeing the suitability and usability of the product for a particular application.
